

Ammo Sales Program – Will Match or Beat their Price*

*This offer has one million restrictions that do and will apply, when, where and as needed to protect me and the spirit of the offer. All smart ass, manipulative attempts to take advantage of this offer will be rejected. I do not know what trick or angle someone will try, so I can't list them all here. But you can bet this clause, to be sure, that you will not prevail in trying to get more of a discount of free shit by trying to be a smarmy pants. This offer expires and changes as needed and when I want. This is a guideline, to offer ammo sales from a reasonable person, to a reasonable public, not to manipulative people. Got to get my rants in when I can.

Ammo List starts

Milpitas Shooting Range – R.I.P. Established 1982 Murdered 2019

*It has been my pleasure to serve you (the shooting community) for over 35 years.
Me and my staff – from employee #101 to Employee #977 want to thank you for your business all these years. - Bill*

Please help us close out the inventory - without too much bleeding

Low balers will be nominated for, “Liberal of the Year” awards - so please - don't try and take advantage of our miss fortune.

We are trying to make a fare offer for sale, to be able to cover our final liabilities.

- Vultures will shooed away (shot down) -

Ammo List starts

1. Pick out the ammo you want from the available pdf list ~~- from our web site -~~ Page 2
2. Look up the current market price on the internet by MFG and Part Number from your favorite site
And/or check with your favorite store.

If it is out of stock, it may not be the current market price and we will not accept the price.

Check more than one sight – we can not afford to match the price on a internet clearance sale.

I will be checking multiple sights to make sure it is a reasonable, current market price.

3. Add in any shipping charges to get the ammo to your transfer agent
4. Figure/List your favorite shop's/transfer agent's handling fee and state DROS fees,

Note: All sales tax will be collected by the transfer agent or collected by us.

We all have to pay the CA “sales and use tax”.

Email an offer to: ClosingInventory.TMW@gmail.com

Make sure to list each product (ammo by MFG, and MFG#) and what you will pay for it

How many boxes you want of each product

What web sight or store you found it, in stock (for price verification)

Don't forget to include your transfer agent's fees for the shipment

We can only compare apples to apples, a 20 round box is not the same as a 1000 bulk pack

List how many boxes you want (from our list) and what you will pay for it, per box delivered.....

*If your offer is fare – we will apply any discounts below and email you back

If your offer does not appear to be fare – I will send you back a counter offer for the total.

Thank you for helping us die gracefully.....

Buy 10 to 20 boxes (Mix and Match) and we will take 5% off the total above price.

Buy 20 to 50 boxes (Mix and Match) and we will take 10% off the total above price.

Buy 50 or more boxes (Mix and Match) and we will take 12.5% off the total above price.

Order more than half your order in center fire defense loads and you can have an additional 2.5% off.

(JHP, 20 rnd boxes, you know the expensive stuff)

*If you are a low baler/vulture – please don't waist my time. I will accept valid offers on the ammo. I will verify the availability for the product but I can not sell the stuff for less than I paid for it. This is an offer for you to get a fair price for ammo. For me to pay down the bills of the company. Do not abuse this offer.

I will update the list of ammo as it disappears/sells – if it is listed - it is more than likely still in stock.
